

Codersarts Projects: Live Projects Training for CSE

Food Delivery App

Project Overview:

This is a food delivery app in which a user can register on the website with his name, email, password, and other details and explore our list of available food items and order them. We will list all the food items and allow users to add them into the cart according to their needs. Then they can decide to checkout to payment or pay on delivery. We will also list the history and status of their orders in their dashboard.
